V100 SXM2 system shortlist

64 saved listings • Exported 2026-09-25 14:13 UTC

Goal: complete rackmount eight-GPU V100 SXM2 system. Compare 16GB and preferred 32GB modules; GPU-less hosts and specialized host parts are also in scope.

Prices and descriptions are saved observations, not freshly checked quotes. Match confidence is not seller trust, a probability, or a guarantee. Unknown shipping, import charges and missing components remain unknown.

How to use this document

Click a listing link, sign in to its marketplace, and select Contact seller on eBay or Contact Supplier / Send inquiry / Chat now on Alibaba. Seller identity and contact details may only be available on the listing. The detailed entries include specific questions you can copy.

For a host-only quote, ask for a GPU-less system ready for eight V100 SXM2 modules, including the GPU baseboard, CPU board, power distribution, PSUs, internal links, chassis, eight heatsinks, fans and rails. Request complete 8×16GB and 8×32GB quotes separately, and specify Zografou 15771 Greece and private-buyer delivery costs.

Price and delivery

Price unknown

Price basis: unknown

No price observed; no delivered-cost estimate to Zografou 15771 Greece can be made.

Why it was saved

Title explicitly states HP ProLiant XL270d Gen10, 8x Tesla V100 32GB SXM2, 2x Xeon 6150 36-core, used and fully tested; strong 32GB complete-system candidate, but price, BOM and NVLink evidence are not yet extracted.

Likely contents (claims, not confirmation)

• HP ProLiant XL270d Gen10 8-SXM2 host claimed

• 8x V100 32GB SXM2 claimed

• 2x Xeon 6150 36-core CPUs claimed

• used/fully tested claimed

• RAM/SSD/PSUs/fans/cables/rails unknown

Missing or uncertain

• price

• NVLink topology evidence

• RAM/SSD/PSUs/fans/cables/rails

• condition/testing detail

• stock/availability

• shipping/import costs

Questions for the seller

• Is the system complete and working with eight installed V100 32GB SXM2 modules?

• Can you provide nvidia-smi/NVLink evidence or photos showing one 8-way NVLink domain?

• What exact RAM, SSD, PSUs, fans, cables, rails, condition, warranty and stock are included?

• What is the total delivered price to Zografou 15771 Greece including shipping, insurance, VAT, duty and fees?

Source notes

search_result: DuckDuckGo Lite result u397: eBay item 267701377882 titled 'HP ProLiant XL270d Gen10 8x Tesla V100 32GB SXM2 2x Xeon 6150 36 ...' with snippet 'Used, fully tested, and ready to deploy.'

Price and delivery

USD 10,000.00 (estimate)

Price basis: advertised_price_search_snippet

USD 10,000 and CAD 13,987 are search-snippet advertised prices only; no EUR conversion, shipping, insurance, VAT, duty, brokerage or payment fees included.

Why it was saved

Title explicitly states HPE XL270D Gen10, 8x Tesla V100 32G, NVLink, dual 8260 CPU; search snippets now show USD 10,000 / CAD 13,987 price evidence, but item-page BOM, condition and delivered cost remain unknown.

Likely contents (claims, not confirmation)

• HPE XL270D Gen10 8-SXM2 host claimed

• 8x V100 32GB SXM2 claimed

• NVLink claimed

• dual Xeon 8260 CPUs claimed

• RAM/SSD/PSUs/fans/cables/rails unknown

Missing or uncertain

• item-page price

• condition/testing

• NVLink topology evidence

• RAM/SSD/PSUs/fans/cables/rails

• stock/availability

• shipping/import costs

Questions for the seller

• Is the current item price USD 10,000 or CAD 13,987, and is it for a complete working system with eight installed V100 32GB SXM2 modules?

• Can you provide nvidia-smi/NVLink evidence or photos showing one 8-way NVLink domain?

• What exact RAM, SSD, PSUs, fans, cables, rails, condition, warranty and stock are included?

• What is the total delivered price to Zografou 15771 Greece including shipping, insurance, VAT, duty and fees?

Source notes

search_result: u366 item title plus u376/u401 snippets showing USD 10,000 / USD 9,900 coupon and u411 snippet showing CAD 13,987 for same HPE XL270D Gen10 8x V100 32G NVLink title.

Open the listing, sign in to eBay, and choose Contact seller in the seller section.

Price and delivery

EUR 3,062.34 (advertised)

Price basis: advertised_price_range_min

EUR3062.34-7322.44 is advertised variant range only; no shipping, insurance, VAT, duty, brokerage or payment fees included.

Why it was saved

Fetched page gives EUR3062.34-7322.44, used status, CPU 6138, 64GB RAM, 1TB SSD, 4x2200W PSUs, and explicit 16GB/32GB server-workstation options; under current 32GB preference this is a strong 32GB-capable complete-system candidate, but the 32GB variant price is not yet identified.

Likely contents (claims, not confirmation)

• 8x V100 SXM2 GPUs claimed

• 16GB or 32GB variant options claimed

• CPU 6138 claimed

• 64GB RAM claimed

• 1TB SSD claimed

• 4x 2200W PSUs claimed

• used status claimed

Missing or uncertain

• price for 32GB variant

• NVLink topology evidence

• exact host/baseboard

• fans/cables/rails

• condition/testing

• shipping/import costs

Questions for the seller

• What is the exact price for the 8x V100 32GB SXM2 variant?

• Is the 32GB variant complete and working with eight installed modules?

• Can you confirm one 8-way NVLink domain with nvidia-smi/NVLink evidence?

• What is the total delivered price to Zografou 15771 Greece for the 32GB variant?

Source notes

search_result: Fetched u313 page: EUR3062.34-7322.44, used, CPU 6138, 64GB RAM, 1TB SSD, 4pcs 2200W, options 'V100 16gb server workstation' and 'V100 32gb server workstation'.

Price and delivery

EUR 1,758.03 (estimate)

Price basis: advertised_unit_price

EUR1758.03 is advertised unit price only; no shipping, insurance, VAT, duty, brokerage, or payment fees included.

Why it was saved

Fetched Alibaba listing explicitly states V100 SXM2 16GB, 8-GPU, 8-GPU NVLink, model number XL270d Gen10, stock, and MOQ1 with EUR1758.03. Strong stated match, but CPU/RAM/SSD/PSU/fans/cables/rails, condition, NVLink evidence, and delivered cost remain unknown.

Likely contents (claims, not confirmation)

• 8x V100 SXM2 16GB GPUs claimed

• 8-GPU NVLink interconnection claimed

• XL270d Gen10 model number claimed

• rackmount/blade server claimed

• CPU model/count unknown

• RAM/SSD/PSUs/fans/cables/rails unknown

Missing or uncertain

• whether complete working system or barebones/configurable

• NVLink topology evidence

• CPU model/count

• RAM/SSD

• PSU wattage, fans, cables, rails

• condition/testing

• shipping/import costs

Questions for the seller

• Is EUR1758.03 for a complete working server with eight installed V100 16GB SXM2 modules?

• Can you confirm one 8-way NVLink domain with nvidia-smi/NVLink photo or logs?

• What exact CPUs, RAM, SSD, PSUs, fans, cables, and rails are included?

• What is the condition, test status, warranty, or return policy?

Price and delivery

Price unknown

Price basis: unknown

No price observed; no delivered-cost estimate to Zografou 15771 Greece can be made.

Why it was saved

Portuguese Alibaba title/snippet states 8 V100 SXM2 NVLink complete/pre-assembled customizable system with 192GB DDR4 and 1.92TB SSD; strong stated BOM, but price, exact host, NVLink evidence, and delivered cost are unknown.

Likely contents (claims, not confirmation)

• 8x V100 SXM2 GPUs claimed

• NVLink complete claimed

• pre-assembled/customizable system claimed

• 192GB DDR4 claimed

• 1.92TB SSD claimed

• exact host/baseboard unknown

• CPUs/PSUs/fans/cables/rails unknown

Missing or uncertain

• price

• exact host/baseboard

• whether eight V100 16GB modules are included

• NVLink topology evidence

• CPU model/count

• PSUs/fans/cables/rails

• condition/testing

• shipping/import costs

Questions for the seller

• Is the system complete with eight installed V100 16GB SXM2 modules, or customizable/barebones?

• Can you confirm one 8-way NVLink domain with nvidia-smi/NVLink evidence?

• What exact CPUs, SSD, PSUs, fans, cables, and rails are included?

• What is the total delivered price to Zografou 15771 Greece including shipping, insurance, VAT, duty, and payment fees?

Lead #32 — HPE Server with 8×Tesla V100 SXM2, NVLink Ring Interconnect For ... - eBay

OPEN LISTING / CONTACT SELLER

https://www.ebay.com/itm/820109990635

complete system • Match confidence 72/100

Last saved: 2026-09-24 05:57 UTC

Price and delivery

Price unknown

Price basis: unknown

No price observed in snippet; no delivered-cost estimate to Zografou 15771 Greece can be made.

Why it was saved

eBay sale-listing snippet explicitly says HPE server with eight Tesla V100 SXM2 GPUs in NVLink ring interconnect; strong topology and GPU-quantity match, but 16GB vs 32GB, exact HPE model, price, condition, BOM, and availability are unknown.

Likely contents (claims, not confirmation)

• HPE server

• 8x V100 SXM2 GPUs claimed

• NVLink ring interconnect claimed

• black heatsinks/silver fans observed in snippet

• CPUs/RAM/SSD/PSUs/rails unknown

Missing or uncertain

• 16GB vs 32GB per GPU

• exact HPE model/baseboard

• price

• condition/testing

• CPU/RAM/SSD/PSU/fans/cables/rails

• stock/availability

• shipping/import costs

Questions for the seller

• Are all eight GPUs V100 16GB SXM2, and can you provide part-number photos or nvidia-smi/NVLink evidence?

• What exact HPE model and baseboard are included, e.g. Apollo 6500 / XL270d SXM2 variant?

• What CPUs, RAM, SSD, PSUs, fans, cables, and rails are included?

• What is the price, condition, test status, warranty, and current stock status?

• What is the total delivered price to Zografou 15771 Greece including shipping, insurance, VAT, duty, and payment fees?

Source notes

search_result: DuckDuckGo Lite result for observed eBay item URL: 'HPE server with eight Tesla V100 SXM2 GPUs in NVLink ring interconnect, showing black heat sinks and silver fan blades. Have one to sell?'

Open the listing, sign in to eBay, and choose Contact seller in the seller section.

Lead #61 — Q9U37A P05912-001 HPE NVIDIA TESLA V100-32GB SXM2 GPU Module NEW

OPEN LISTING / CONTACT SELLER

Price and delivery

Price unknown

Price basis: unknown

No price observed; no delivered-cost estimate to Greece can be made.

Why it was saved

Title explicitly states HPE NVIDIA Tesla V100 32GB SXM2 module, Q9U37A/P05912-001, NEW; now preferred 32GB module donor, but it is not a host and price/stock are unknown.

Likely contents (claims, not confirmation)

• V100 32GB SXM2 module claimed

• HPE PN Q9U37A / P05912-001 claimed

• NEW condition claimed

Missing or uncertain

• price

• stock

• quantity

• heatsink/retainer inclusion

• shipping/import costs

Questions for the seller

• Is this one V100 32GB SXM2 module or a tray/multi-module package?

• What is the price for one module and for eight modules?

• Are heatsinks, retainers, or SXM2 carrier parts included?

• What is the total delivered price to Zografou 15771 Greece including shipping, insurance, VAT, duty, and fees?

Source notes

search_result: u412 eBay UK result: Q9U37A P05912-001 HPE NVIDIA TESLA V100-32GB SXM2 GPU Module NEW, associated with HPE ProLiant XL270d Gen10 in snippet.

Price and delivery

EUR 3,096.97 (advertised)

Price basis: advertised_unit_price_1_to_9

EUR3096.97 is advertised 1-9 piece price only; no shipping, insurance, VAT, duty, brokerage, or payment fees included.

Why it was saved

Fetched page gives EUR3096.97, stock, 8 V100 SXM2 16GB GPUs, Intel Gold 6138, 2T SSD, and 32 DDR4 DIMMs; plausible 16GB complete system, but NVLink evidence and PSU details remain unknown.

Likely contents (claims, not confirmation)

• 8× V100 SXM2 16GB GPUs claimed

• Intel Gold 6138 CPUs claimed

• 2T SSD claimed

• 32 DDR4 DIMM slots claimed

• stock claimed

• PSUs/fans/cables/rails unknown

Missing or uncertain

• NVLink topology evidence

• PSU count/wattage

• fans/cables/rails

• condition/testing

• shipping/import costs

Questions for the seller

• Is EUR3096.97 for a complete working server with eight installed V100 16GB SXM2 modules?

• Can you confirm one 8-way NVLink domain with nvidia-smi/NVLink evidence?

• What exact PSUs, fans, cables, and rails are included?

• What is the total delivered price to Zografou 15771 Greece?

Source notes

search_result: Fetched u314 page: EUR3096.97 1-9 pieces, stock, 8 V100 SXM2 16GB GPUs, Intel Gold 6138, 2T SSD, 32 DDR4 DIMM slots.

Price unknown

Price basis: unknown

No price observed; no delivered-cost estimate can be made.

Why it was saved

Alibaba title explicitly says 8 V100 SXM2 with complete NVLink, 192GB DDR4 and 1.92TB SSD, but capacity per GPU, price, host model, condition and BOM are not yet extracted; promising complete-system candidate with ambiguous capacity.

Likely contents (claims, not confirmation)

• 8x V100 SXM2 claimed

• full NVLink claimed

• 192GB DDR4 claimed

• 1.92TB SSD claimed

• customizable/preassembled system claimed

• 16GB vs 32GB per GPU unknown

Missing or uncertain

• price

• capacity per GPU

• host model

• NVLink topology evidence

• CPU/PSUs/fans/cables/rails

• condition/testing

• stock/availability

• shipping/import costs

Questions for the seller

• Is the 8x V100 SXM2 system 16GB or 32GB per GPU, and can it be configured as 8x32GB?

• What is the exact price for the 8x32GB configuration, if offered?

• Can you confirm one 8-way NVLink domain with nvidia-smi/NVLink evidence?

• What exact host/board, CPUs, PSUs, fans, cables, rails, condition, warranty and stock are included?

• What is the total delivered price to Zografou 15771 Greece?

Source notes

Price unknown

Price basis: unknown

No price observed; no delivered-cost estimate possible.

Why it was saved

Specific HPE P03727-001 SPS-Tray with PCA GPU for XL270d SXM2; directly relevant proprietary GPU tray/baseboard donor, but GPU inclusion, capacity, condition and price are unknown.

Likely contents (claims, not confirmation)

• HPE P03727-001 SPS-Tray with PCA GPU claimed

• XL270d SXM2 compatibility claimed

• GPU modules unknown

• condition unknown

Missing or uncertain

• price

• GPU inclusion

• GPU memory capacity

• eight-slot confirmation

• NVLink topology

• condition/testing

• stock/availability

• shipping/import costs

Questions for the seller

• Does this tray include eight V100 SXM2 modules, and if so are they 16GB or 32GB?

• Is the tray tested with eight-way NVLink, or is it an empty/PCA-only tray?

• What is the condition, warranty, stock and price?

• What is shipping to Zografou 15771 Greece including insurance?

Price and delivery

Price unknown

Price basis: unknown

No price observed; no delivered-cost estimate to Zografou 15771 Greece can be made.

Why it was saved

eBay listing explicitly identifies HP P01786-B22 XL270D G10 8 SXM2 GPU MODULE P03727-001, a plausible 8-SXM2 donor/baseboard, but GPU inclusion, 16GB, price, and condition are unknown.

Likely contents (claims, not confirmation)

• HP/HPE P01786-B22 XL270d Gen10 8 SXM2 GPU module

• related P03727-001

• possibly 8 installed GPU modules or empty module/baseboard

• 16GB per GPU unknown

• NVLink topology unknown

Missing or uncertain

• price

• whether GPUs are included

• 16GB vs 32GB

• NVLink topology

• condition/testing

• shipping/import costs

Questions for the seller

• Does this P01786-B22 item include eight installed V100 16GB SXM2 modules, or is it an empty 8-SXM2 module/baseboard?

• Can you confirm one 8-way NVLink domain if GPUs are installed?

• What is the exact condition, test status, and price?

• What is the total delivered price to Zografou 15771 Greece including shipping, insurance, VAT, duty, and payment fees?

Source notes

search_result: DuckDuckGo Lite result for observed eBay item u370: 'HP P01786-B22 XL270D G10 8 SXM2 GPU MODULE - P03727-001'.

Open the listing, sign in to eBay, and choose Contact seller in the seller section.

Lead #1 — GPU-Server-Vorsystem mit 8 V100 SXM2 NVLink GPUs, anpassbar mit 192 GB DDR4-Speicher und 1,92 TB SSD

Last saved: 2026-09-23 22:23 UTC

Price and delivery

EUR 1,748.84 (estimate)

Price basis: advertised_unit_price

EUR1748.84 is advertised unit price only; no shipping, insurance, VAT, duty, brokerage, or payment fees are included.

Why it was saved

Explicit 8x V100 SXM2 NVLink, 192GB DDR4, 1.92TB SSD, MOQ1, low advertised price, and supplier lists Greece as a main market; however 16GB per GPU, one 8-way NVLink domain, exact baseboard/model, CPU/PSU/rails, whether GPUs are included in the price, condition, and delivered cost remain unproven.

Likely contents (claims, not confirmation)

• 8x V100 SXM2 GPUs claimed

• 192GB DDR4 ECC RAM claimed

• 1.92TB SSD claimed

• rackmount chassis claimed

• CPU model/count unknown

• PSUs/fans/cables/rails unknown

Missing or uncertain

• whether each GPU is V100 16GB rather than 32GB, P100, or PCIe

• whether all eight GPUs are in one documented 8-way NVLink topology

• whether the price includes installed GPUs or only a barebones/pre-system

• exact server/baseboard model

• CPU model/count

• PSU wattage, fans, cables, and rails

• condition, burn-in, error logs, seller location, shipping, VAT/duty, insurance, and payment fees

Questions for the seller

• Are eight V100 16GB SXM2 modules included and installed in the EUR1748.84 price, and can you provide part-number photos?

• Can you confirm all eight GPUs form one 8-way NVLink domain rather than two 4-GPU islands, with photo or nvidia-smi/NVLink evidence?

• What exact server/baseboard model, CPUs, RAM, SSD, PSU wattage, fans, cables, and rails are included?

• Is the unit tested, and what condition, warranty, or return policy applies?

• What is the total delivered price to Zografou 15771 Greece including shipping, insurance, VAT, duty, and payment fees?

Source notes

user_report: Archived u8 page states AiLFond Technology Co., Limited HK, 2 years, 4.8/5, main markets include Greece, Guangdong origin, 7-day lead time, EUR1748.84 MOQ1, 8 V100 SXM2 NVLink GPUs, 192GB DDR4 ECC, 1.92TB SSD. It also says 'Vorsystem' and 'Dedizierte PCIe Gen3 x16 Lanes', creating ambiguity whether this is a complete system, pre-system, or barebones configuration.

Open the listing, sign in to Alibaba, and choose Contact Supplier, Send inquiry or Chat now.

Lead #62 — HP P00392-B21 HPE XL270D GEN10 NODE CTO SERVER

OPEN LISTING / CONTACT SELLER

https://www.ebay.com/itm/167732561977

component • Match confidence 55/100

Last saved: 2026-09-24 16:22 UTC

Price and delivery

Price unknown

Price basis: unknown

No price observed; no delivered-cost estimate to Greece can be made.

Why it was saved

Observed HPE XL270d Gen10 CTO node listing is a plausible GPU-less host donor; CTO status and snippet association with a Supermicro V100 32GB SXM2 GPU make completeness and actual GPU inclusion uncertain.

Likely contents (claims, not confirmation)

• HPE XL270d Gen10 node/CTO server claimed

• possible CPU board/chassis

• SXM2 GPU tray/baseboard unknown

Missing or uncertain

• price

• GPU inclusion

• eight-SXM2 baseboard/tray presence

• PSU/fan/rail completeness

• condition

• shipping/import costs

Questions for the seller

• Is this a GPU-less CTO node or does it include SXM2 GPUs?

• Does it include the eight-SXM2 GPU tray/baseboard, midplane, PSUs, fans, cables, and rails?

• Can it support eight V100 32GB SXM2 modules in one NVLink topology?

• What is the price and total delivered cost to Zografou 15771 Greece?

Source notes

search_result: u399 eBay result: HP P00392-B21 HPE XL270D GEN10 NODE CTO SERVER; snippet also references Supermicro 900-2G503-0010-000 V100 32GB SXM2 GPU, but that association is unconfirmed.

Open the listing, sign in to eBay, and choose Contact seller in the seller section.

Price and delivery

Price unknown

Price basis: unknown

No price observed; no delivered-cost estimate possible.

Why it was saved

Specific HP ProLiant XL270d G10 compatible DDR4 RAM; useful routine BOM item for XL270d builds, but not a specialized SXM2 host component and price is unknown.

Likely contents (claims, not confirmation)

• 32GB DDR4 2Rx8 RDIMM kit claimed

• PC4-2933Y-R speed claimed

• XL270d G10 compatibility claimed

• quantity/ECC details unknown

Missing or uncertain

• price

• quantity

• condition/testing

• stock/availability

• shipping/import costs

Questions for the seller

• Is this one 32GB kit or a larger set, and what is the price per kit?

• Is it ECC registered DDR4 suitable for HPE XL270d Gen10?

• What is the condition, warranty, stock and shipping to Zografou 15771 Greece?

Source notes

search_result: u402 eBay item 224830963620: '32GB 2x16GB 2Rx8 PC4-2933Y-R HP ProLiant XL230k G10 XL270d G10 Memory RAM'.

Price and delivery

Price unknown

Price basis: unknown

No price observed; no delivered-cost estimate to Greece can be made.

Why it was saved

Explicit HP XL270d Gen10 4x V100 32GB SXM2 system; not an exact eight-GPU system, but a plausible donor for 32GB modules, SXM2 tray, or host parts under the new 32GB preference.

Likely contents (claims, not confirmation)

• HPE XL270d Gen10 host claimed

• 4x V100 32GB SXM2 claimed

• 2x Xeon 6150 CPUs claimed

Missing or uncertain

• price

• whether eight-SXM2 tray/baseboard is present

• GPU removability

• PSU/fan/rail completeness

• shipping/import costs

Questions for the seller

• Can the four installed V100 32GB SXM2 modules be removed and sold separately?

• Does the host include the eight-SXM2 GPU tray/baseboard, midplane, PSUs, fans, cables, and rails?

• What is the price for the host without GPUs and for the four 32GB modules?

• What is the total delivered price to Zografou 15771 Greece?

Source notes

search_result: u396 eBay result: HP ProLiant XL270d Gen10 4x Tesla V100 32GB SXM2 2x Xeon 6150 36 Core GPU Server, seller Shop-MyDatacenter.

Open the listing, sign in to eBay, and choose Contact seller in the seller section.

Price and delivery

EUR 110.00 (estimate)

Price basis: user_reported_unit_price

EUR110 per module and EUR880 for eight are user-reported estimates, not seller-confirmed quotes or delivered costs.

Why it was saved

User-reported exact model/memory and likely SXM2 interface, but no seller-confirmed page, price for eight, condition, NVLink compatibility, or shipping.

Likely contents (claims, not confirmation)

• 1x used V100 16GB SXM2 module

• NVLink compatibility unconfirmed

• health/test status unknown

Missing or uncertain

• Seller-confirmed price for eight modules

• MOQ and stock

• Exact interface and part number

• NVLink compatibility

• Condition and health tests

• Shipping, insurance, VAT, duty, and payment fees

Questions for the seller

• Are these V100 16GB SXM2 modules, and are eight available?

• What is the confirmed price for eight modules, including any lot discount?

• What is the condition, test status, and warranty or return policy?

• Do you provide part-number photos and evidence that they are SXM2, not PCIe?

• What is the total delivered price for eight modules to Zografou 15771 Greece including shipping, insurance, VAT, duty, and payment fees?

Source notes

user_report: Seed and user report describe a used Tesla V100 16G SXM2 module at EUR110 each. The page fetch was marked irrelevant and assess failed because no archived document was available, so this remains a user-reported component lead.

Open the listing, sign in to Alibaba, and choose Contact Supplier, Send inquiry or Chat now.

Price and delivery

USD 475.00 (estimate)

Price basis: sold_price_search_snippet

USD 475 is a sold/search-snippet price only; no EUR conversion, shipping, insurance, VAT, duty, brokerage, or payment fees included.

Why it was saved

Explicit HPE Apollo 6500 / XL270d eight-SXM2 GPU module listing with a sold price of USD 475, but the snippet says SOLD, so current availability is uncertain; useful as a component price benchmark.

Likely contents (claims, not confirmation)

• HPE eight-SXM2 GPU module/tray claimed

• P01786-B22 / P03727-001 claimed

• GPU modules possibly absent

Missing or uncertain

• current availability

• GPU inclusion

• 16GB versus 32GB

• condition

• shipping/import costs

Questions for the seller

• Is this item still available or only a sold benchmark?

• Does it include installed V100 SXM2 modules, or is it an empty tray/baseboard?

• If modules are included, are they 16GB or 32GB?

• What is the current price and total delivered cost to Zografou 15771 Greece?

Source notes

search_result: u352 eBay result: HPE Apollo 6500 / Proliant XL270d Gen10 8 SXM2 GPU Module P01786-B22 P03727-001, snippet says Sold US $475.00.

Open the listing, sign in to eBay, and choose Contact seller in the seller section.

Price and delivery

Price unknown

Price basis: unknown

No price observed; cannot estimate delivered cost.

Why it was saved

Title mentions 8 V100 SXM2 NVLink GPU, which is promising, but 'Quasi' is ambiguous and no price, per-GPU memory, topology, or BOM is known.

Likely contents (claims, not confirmation)

• 8x V100 SXM2 GPUs claimed by title

• NVLink claimed by title but topology unknown

• 16GB per GPU unconfirmed

• server completeness unknown

Missing or uncertain

• Price

• per-GPU memory

• NVLink topology

• condition

• CPU/RAM/SSD/PSU/fans/cables/rails

• shipping and import costs

Questions for the seller

• Is this a complete rackmount server or barebones?

• Are all eight GPUs V100 16GB SXM2 and in one 8-way NVLink domain?

• What does 'Quasi' mean: refurbished, used, new, or configurable?

• What CPUs, RAM, SSD, PSUs, fans, cables, and rails are included?

Price and delivery

Price unknown

Price basis: unknown

No price observed; no delivered-cost estimate to Zografou 15771 Greece can be made.

Why it was saved

Known HPE 8-SXM2-capable platform and new Ubuntu certification pages confirm the XL270d Gen10 platform, but the sale listing still does not confirm SXM2 variant, V100 16GB, GPU inclusion, 8-way NVLink, price, or BOM.

Likely contents (claims, not confirmation)

• HPE Apollo 6500 XL270d host or complete server

• SXM2 or PCIe variant unknown

• GPU inclusion unknown

• CPU/RAM/SSD/PSU/fans/cables/rails unknown

Missing or uncertain

• SXM2 vs PCIe variant

• V100 16GB support/inclusion

• 8-way NVLink topology

• price

• CPU/RAM/SSD/PSU/fans/cables/rails

• condition/testing

• shipping/import costs

Questions for the seller

• Is this the SXM2 XL270d variant, not the PCIe variant?

• Are eight V100 16GB SXM2 modules included and in one 8-way NVLink domain?

• What CPUs, RAM, SSD, PSUs, fans, cables, and rails are included?

• What is the total delivered price to Zografou 15771 Greece including shipping, insurance, VAT, duty, and payment fees?

Source notes

user_report: Original observed Alibaba title; fetch u6 irrelevant. New observed u71/u72 are Ubuntu certification pages for HPE XL270d Gen10 Skylake/Cascade Lake, not sale-listing evidence.

Last saved: 2026-09-24 16:22 UTC

Price and delivery

Price unknown

Price basis: unknown

No price observed; no delivered-cost estimate to Greece can be made.

Why it was saved

Alibaba product mentions V100 32GB and SXM2, but the title also says PCIe and the URL slug mentions SXM3; form factor is too ambiguous to treat as a clear 32GB SXM2 module.

Likely contents (claims, not confirmation)

• V100 32GB GPU claimed

• SXM2 or PCIe form factor ambiguous

Missing or uncertain

• form factor

• module versus card

• quantity

• price

• condition

• shipping/import costs

Questions for the seller

• Is this a V100 32GB SXM2 module, not a PCIe card?

• How many modules are included in one offer?

• Are heatsinks, retainers, or carrier parts included?

• What is the price per module and total delivered cost to Zografou 15771 Greece?

Source notes

search_result: u408 Chinese Alibaba result: V100 PCIe 32GB GPU / V100 SXM2 deep learning accelerator; snippet does not confirm SXM2 module format or quantity.

Lead #14 — eBay eight V100 16GB listing (out of stock reported)

OPEN LISTING / CONTACT SELLER

https://www.ebay.com/itm/376747880266

complete system • Match confidence 30/100

Last saved: 2026-09-23 20:46 UTC

Price and delivery

USD 3,499.99 (estimate)

Price basis: observed_list_price

USD3499.99 is reported list price only; out of stock; no EUR conversion or shipping estimate.

Why it was saved

Research note from observed eBay item says it advertised eight V100 16GB at USD3499.99 but was explicitly out of stock. It may be a complete 8-GPU system or module lot, but SXM2, NVLink, completeness, stock, and delivered cost are unconfirmed.

Likely contents (claims, not confirmation)

• possibly 8x V100 16GB system or module lot

• SXM2/NVLink unknown

• CPU/RAM/SSD/PSU/rails unknown

Missing or uncertain

• whether currently available or restock possible

• whether complete system or eight modules

• SXM2 vs PCIe

• NVLink topology

• CPU/RAM/SSD/PSU/fans/cables/rails

• condition/testing

• shipping/import costs

Questions for the seller

• Is this listing restocked, or can you offer an equivalent 8x V100 16GB SXM2 NVLink system?

• Are all eight GPUs V100 16GB SXM2 in one 8-way NVLink domain, or are they PCIe/other?

• Is the price for a complete working server or eight modules only?

• What CPUs, RAM, SSD, PSUs, fans, cables, and rails are included?

• What is the total delivered price to Zografou 15771 Greece including shipping, insurance, VAT, duty, and payment fees?

Source notes

user_report: Observed eBay item u13 is noted as advertising eight V100 16GB at USD3499.99, but the page explicitly says Out of Stock. Do not count as available; keep only as restock/equivalent lead.

Open the listing, sign in to eBay, and choose Contact seller in the seller section.

Lead #58 — V100 32gb Sxm2 With Nvlink Ai Computer,Suitable For Deep Search Ai Server Computer

OPEN LISTING / CONTACT SELLER

https://alibaba.com/product-detail/V100-32GB-SXM2-with-NVLink-AI_1601858037139.html

component • Match confidence 28/100

Last saved: 2026-09-24 09:14 UTC

Price and delivery

Price unknown

Price basis: unknown

No price observed; no delivered-cost estimate can be made.

Why it was saved

Alibaba product title states V100 32GB SXM2 with NVLink AI computer/server, but GPU count, form factor and price are not stated; possible 32GB SXM2 donor or ambiguous system.

Likely contents (claims, not confirmation)

• V100 32GB SXM2 module(s) claimed

• NVLink claimed

• AI computer/server claimed

• GPU count unknown

• host/CPU/RAM/SSD/PSUs unknown

Missing or uncertain

• price

• GPU count

• host family

• NVLink topology

• CPU/RAM/SSD/PSUs/fans/cables/rails

• condition/testing

• shipping/import costs

Questions for the seller

• How many V100 32GB SXM2 modules are included?

• Is the system 8-SXM2 with one 8-way NVLink domain, or a smaller workstation?

• What exact host/board, CPUs, RAM, SSD, PSUs, fans, cables and rails are included?

• What is the total delivered price to Zografou 15771 Greece?

Source notes

search_result: DuckDuckGo Lite result u404: Alibaba product 1601858037139 titled 'V100 32gb Sxm2 With Nvlink Ai Computer,Suitable For Deep Search Ai Server Computer'.

Open the listing, sign in to Alibaba, and choose Contact Supplier, Send inquiry or Chat now.

Lead #59 — V100 32gb 16gb SXM2, with NVLink AI computer for Deep Search AI server computer X99 E5

OPEN LISTING / CONTACT SELLER

https://chinese.alibaba.com/product-detail/V100-32GB-16GB-SXM2-with-NVLink-1601639804968.html

component • Match confidence 25/100

Last saved: 2026-09-24 09:14 UTC

Price and delivery

Price unknown

Price basis: unknown

No price observed; no delivered-cost estimate can be made.

Why it was saved

Alibaba title lists V100 32GB/16GB SXM2 with NVLink and X99/E5 workstation, but the snippet suggests a dual-GPU PC/workstation rather than a confirmed 8-SXM2 rackmount system; capacity options make it a low-confidence donor.

Likely contents (claims, not confirmation)

• V100 32GB or 16GB SXM2 module(s) claimed

• NVLink claimed

• X99/E5 workstation/server claimed

• GPU count likely not 8

• CPU/RAM/SSD/PSUs unknown

Missing or uncertain

• price

• GPU count

• capacity per GPU

• host family

• NVLink topology

• CPU/RAM/SSD/PSUs/fans/cables/rails

• condition/testing

• shipping/import costs

Questions for the seller

• How many V100 SXM2 modules are included and are they 16GB or 32GB?

• Is this an 8-SXM2 NVLink server or a 1-2 GPU workstation?

• What exact board, CPUs, RAM, SSD, PSUs, fans, cables and rails are included?

• What is the total delivered price to Zografou 15771 Greece?

Source notes

search_result: DuckDuckGo Lite result u405: Alibaba product 1601639804968 titled in Chinese 'V100 32gb 16gb SXM2, with NVLink AI computer ... X99 E5 ...' and attributes OEM V100 server workstation.

Open the listing, sign in to Alibaba, and choose Contact Supplier, Send inquiry or Chat now.

Price and delivery

Price unknown

Price basis: unknown

No price observed; cannot estimate delivered cost.

Why it was saved

Observed eBay item URL may be a donor or complete system, but the page is blocked and the seed label indicates P100 donor or 32GB comparison only, so it cannot be counted as V100 16GB.

Likely contents (claims, not confirmation)

• unknown eBay server or donor

• possibly P100 donor

• possibly 32GB V100 comparison unit

Missing or uncertain

• GPU model/memory/interface

• NVLink topology

• system completeness

• price

• condition

• shipping and import costs

Questions for the seller

• What exact GPU model, memory, interface, and quantity are included?

• Is this a P100 donor, V100 16GB, V100 32GB, or another GPU?

• Is it a complete working system or a donor for chassis/baseboard/PSUs?

• What is the price, condition, and test status?

• What is the total delivered price to Zografou 15771 Greece including shipping, insurance, VAT, duty, and payment fees?

Source notes

user_report: eBay item fetch returned HTTP 403. Seed label says P100 is only a potential donor and 32GB is comparison only.

Price and delivery

EUR 1,276.18 (estimate)

Price basis: advertised_unit_price

EUR1276.18 is list price only; no shipping/import estimate.

Why it was saved

Observed Alibaba listing now shows EUR1276.18 MOQ1, a server-PC with Nvidia GPU and 4TB storage from Germany. It is a possible cheap complete host/donor, but there is no evidence of eight V100 16GB SXM2 modules, NVLink, or required BOM.

Likely contents (claims, not confirmation)

• NINETEEN Q670E server or server-PC

• Nvidia GPU present but model/quantity/interface unknown

• 4TB storage

• Germany origin

• CPU/RAM/PSU/fans/cables/rails unknown

Missing or uncertain

• GPU model/memory/interface

• whether 8x V100 16GB SXM2 are included

• NVLink topology

• CPU model/count

• RAM

• SSD type/quantity

• PSUs/fans/cables/rails

• condition/testing

• shipping/import costs

Questions for the seller

• Is this a complete working server or barebones?

• What exact Nvidia GPU model, quantity, and interface are included? Are they V100 16GB SXM2?

• Can it support eight V100 16GB SXM2 modules in one 8-way NVLink topology, or is it only a PCIe/generic host?

• What CPUs, RAM, SSD, PSUs, fans, cables, and rails are included?

• What is the total delivered price to Zografou 15771 Greece including shipping, insurance, VAT, duty, and payment fees?

Source notes

user_report: Archived u24 page states NINETEEN Q670E server-PC with Nvidia GPU, EUR1276.18, MOQ 1, Germany, 4TB storage. GPU model, quantity, interface, and NVLink are not stated.

Open the listing, sign in to Alibaba, and choose Contact Supplier, Send inquiry or Chat now.

Lead #9 — KI-Infrastruktur für Unternehmen – Sichere KI-Plattformen, GPU-Server und KI-Lösungen | Nelpx

OPEN LISTING / CONTACT SELLER

Price and delivery

Price unknown

Price basis: unknown

No price observed; $0.00 subtotal on page is not a quote.

Why it was saved

Archived page confirms a German GPU-server/AI-infrastructure offer but no V100, no 16GB, no SXM2, no 8-GPU, no NVLink, and no price; it appears service/configurable and similar products include HGX B300, not target.

Likely contents (claims, not confirmation)

• GPU server or AI infrastructure package/service

• Nvidia GPU possibly but model unknown

• possibly HGX B300 or other accelerator

• CPU/RAM/PSU/rails unknown

Missing or uncertain

• hardware vs service

• GPU model/memory/interface

• GPU quantity

• NVLink topology

• price

• CPU/RAM/SSD/PSU/fans/cables/rails

• condition

• shipping/import costs

Questions for the seller

• Is this a purchasable complete rackmount server rather than a hosting/managed service?

• Can you configure it with eight V100 16GB SXM2 modules in one 8-way NVLink topology?

• What exact GPU model, quantity, interface, CPUs, RAM, SSD, PSUs, fans, cables, and rails are included or optional?

• What is the total delivered price to Zografou 15771 Greece including shipping, insurance, VAT, duty, and payment fees?

Source notes

user_report: Archived u25 page states KI-Infrastruktur für Unternehmen – Sichere KI-Plattformen, GPU-Server und KI-Lösungen, MOQ 1, Germany, no V100/SXM2/NVLink details and no price. Similar items include NVIDIA HGX B300, which is not an exact V100 target.

Open the listing, sign in to Alibaba, and choose Contact Supplier, Send inquiry or Chat now.

Lead #11 — 2U Rackmount Server Dual Socket 24

No price observed; cannot estimate delivered cost to Greece.

Why it was saved

Generic 2U dual-socket rackmount server title may be a cheap host/donor, but 2U form factor is unlikely to be a native 8x SXM2 V100 system and no GPU details are given.

Likely contents (claims, not confirmation)

• 2U rackmount server

• dual-socket CPU platform

• GPU unknown

• CPU/RAM/SSD/PSU/rails unknown

Missing or uncertain

• exact model

• GPU presence

• SXM2 compatibility

• NVLink topology

• price

• CPU/RAM/SSD/PSU/fans/cables/rails

• condition and testing

• shipping and import costs

Questions for the seller

• Is this a complete working server or barebones?

• Can it accept eight V100 16GB SXM2 modules in one 8-way NVLink topology, or is it only a generic host/donor?

• What exact motherboard, GPU baseboard, CPUs, RAM, SSD, PSUs, fans, cables, and rails are included?

• What is the price and condition?

• What is the total delivered price to Zografou 15771 Greece including shipping, insurance, VAT, duty, and payment fees?

Source notes

Price and delivery

Price unknown

Price basis: unknown

No price observed; no delivered-cost estimate to Zografou 15771 Greece can be made.

Why it was saved

Observed Alibaba product title only; possible cheap rack/mini server donor or host, but no V100, 16GB, SXM2, 8-GPU, NVLink, price, or BOM evidence.

Likely contents (claims, not confirmation)

• Terra mini server or rack server

• CPU/RAM/SSD unknown

• GPU presence unknown

• SXM2 compatibility unknown

Missing or uncertain

• exact model

• form factor and depth

• GPU presence

• SXM2 compatibility

• NVLink topology

• CPU/RAM/SSD/PSU/fans/cables/rails

• condition and testing

• price

• shipping and import costs

Questions for the seller

• Is this a complete working rackmount server, barebones host, or donor unit?

• Can it accept eight V100 16GB SXM2 modules in one documented 8-way NVLink topology, or is it only a generic/PCIe host?

• What exact model, motherboard, CPUs, RAM, SSD, PSUs, fans, cables, and rails are included?

• What is the price, condition, and total delivered cost to Zografou 15771 Greece including shipping, insurance, VAT, duty, and payment fees?

Price and delivery

Price unknown

Price basis: unknown

No price observed; no delivered-cost estimate to Zografou 15771 Greece can be made.

Why it was saved

Observed Alibaba IT-infrastructure title is only a possible host/donor or service; no V100, SXM2, NVLink, 8-GPU, or price evidence.

Likely contents (claims, not confirmation)

• IT infrastructure solution or server package

• possible host/donor

• GPU unknown

• CPU/RAM/SSD unknown

Missing or uncertain

• hardware vs service

• exact model

• GPU presence

• SXM2 compatibility

• NVLink topology

• price

• CPU/RAM/SSD/PSU/fans/cables/rails

• condition and testing

• shipping and import costs

Questions for the seller

• Is this a purchasable hardware server/host rather than a service?

• Can it support eight V100 16GB SXM2 modules in one 8-way NVLink topology?

• What exact model, CPUs, RAM, SSD, PSUs, fans, cables, and rails are included?

• What is the price, condition, and total delivered cost to Zografou 15771 Greece including shipping, insurance, VAT, duty, and payment fees?

Price and delivery

Price unknown

Price basis: unknown

No price observed; no delivered-cost estimate to Zografou 15771 Greece can be made.

Why it was saved

Observed Alibaba product title suggests a high-performance server/IT-infrastructure unit, but there is no V100, 16GB, SXM2, 8-GPU, NVLink, price, or configuration evidence; only a possible cheap generic host/donor.

Likely contents (claims, not confirmation)

• Terra server or IT-infrastructure unit

• CPU/RAM/SSD unknown

• GPU presence unknown

• SXM2 compatibility unknown

• rackmount size unknown

Missing or uncertain

• exact model

• form factor and depth

• GPU presence

• SXM2 compatibility

• NVLink topology

• CPU/RAM/SSD/PSU/fans/cables/rails

• condition and testing

• price

• shipping and import costs

Questions for the seller

• Is this a complete working rackmount server, barebones host, or donor unit?

• What exact model, motherboard, CPUs, RAM, SSD, PSUs, fans, cables, and rails are included?

• Can it accept eight V100 16GB SXM2 modules in one documented 8-way NVLink topology, or is it only a generic/PCIe host?

Price and delivery

Price unknown

Price basis: unknown

No price observed; no delivered-cost estimate can be made.

Why it was saved

Observed Alibaba product title suggests a Rittal rack/enclosure component, which could be a donor for rack hardware, but there is no GPU, SXM2, NVLink, server, price, or configuration evidence.

Likely contents (claims, not confirmation)

• Rittal rack/enclosure component

• possibly rack, rail, PDU, or enclosure part

• not a GPU host by itself

Missing or uncertain

• exact component type

• compatibility with existing 42U rack

• dimensions

• condition

• price

• shipping and import costs

Questions for the seller

• Is this a 19-inch rack component, rail, PDU, or enclosure part?

• What exact part number, dimensions, load rating, and compatibility does it have?

• Is it new or used, and what is the condition?

• What is the price and total delivered cost to Zografou 15771 Greece including shipping, insurance, VAT, duty, and payment fees?

Price and delivery

Price unknown

Price basis: unknown

No price observed; no delivered-cost estimate to Zografou 15771 Greece can be made.

Why it was saved

Observed Alibaba related-product title only; possible cheap Xeon tower server donor, but no evidence of V100, 16GB, SXM2, 8-GPU, NVLink, rackmount fit, price, or BOM.

Likely contents (claims, not confirmation)

• High-performance tower server

• Xeon processor(s) implied by title

• CPU/RAM/SSD/PSU/fans/cables unknown

• GPU presence unknown

• rackmount conversion unknown

Missing or uncertain

• exact model

• tower vs rackmount

• GPU presence

• SXM2 compatibility

• NVLink topology

• CPU/RAM/SSD/PSU/fans/cables/rails

• condition and testing

• price

• shipping and import costs

Questions for the seller

• Is this a complete working tower server, barebones host, or donor unit?

• What exact model, motherboard, CPUs, RAM, SSD, PSUs, fans, and cables are included?

• Can it be used as a donor for a rackmount 8x V100 16GB SXM2 build, or is it incompatible with SXM2/NVLink?

• What is the price and total delivered cost to Zografou 15771 Greece including shipping, insurance, VAT, duty, and payment fees?

Source notes

user_report: Observed URL/title from related products on u57: High-Performance Tower Server with Xeon. No GPU, SXM2, NVLink, CPU/RAM/SSD/PSU/rail, condition, or price evidence in current context.

Price and delivery

Price unknown

Price basis: unknown

No price observed; no delivered-cost estimate to Zografou 15771 Greece can be made.

Why it was saved

Observed Alibaba product title identifies a Dell R740xd 2U rack server, which could be a cheap complete server or donor, but there is no evidence of V100, 16GB, SXM2, 8-GPU, NVLink, price, or target BOM.

Likely contents (claims, not confirmation)

• Dell R740xd 2U rack server or barebones host

• CPU/RAM/storage unknown

• GPU presence unknown

• SXM2 compatibility unknown

Missing or uncertain

• exact model and configuration

• GPU presence

• SXM2 compatibility

• NVLink topology

• CPU/RAM/SSD/PSU/fans/cables/rails

• condition and testing

• price

• shipping and import costs

Questions for the seller

• Is this a complete working 2U server, barebones host, or donor unit?

• What exact Dell R740xd configuration, CPUs, RAM, storage, PSUs, fans, cables, and rails are included?

• Can it accept eight V100 16GB SXM2 modules in one documented 8-way NVLink topology, or is it only a generic/PCIe host?

• What is the price and total delivered cost to Zografou 15771 Greece including shipping, insurance, VAT, duty, and payment fees?

Source notes

user_report: Observed URL/title only from u57 related products: For Dell R740xd 2U Rack Server. No GPU, SXM2, NVLink, CPU/RAM/SSD/PSU/rail, condition, or price evidence in current context.

Price and delivery

EUR 3,326.36 (estimate)

Price basis: advertised_range_min

EUR3326.36-4191.21 is the advertised range only; MOQ 1; shipping was shown as to be determined; no delivered-to-Greece total is known.

Why it was saved

Archived Alibaba product page now gives an advertised EUR price range and basic Terra MiniServer configuration, but there is no evidence of V100, 16GB, SXM2, 8-GPU, NVLink, or target BOM; it is only a possible generic server donor/host.

Likely contents (claims, not confirmation)

• Terra MiniServer G6 E-2488/32/2x960

• Intel Xeon E-2488 or equivalent 32-thread CPU

• 2x960GB storage implied by model suffix

• rack/mini server chassis

• GPU presence unknown

Missing or uncertain

• GPU presence

• SXM2 compatibility

• NVLink topology

• exact rack depth and rails

• condition and testing

• PSU/fan/cable completeness

• shipping and import costs

Questions for the seller

• Is this a complete working rackmount server, barebones host, or donor unit?

• What exact model, motherboard, CPUs, RAM, SSDs, PSUs, fans, cables, and rails are included?

• Can it accept eight V100 16GB SXM2 modules in one documented 8-way NVLink topology, or is it only a generic/PCIe host?

• What is the total delivered price to Zografou 15771 Greece including shipping, insurance, VAT, duty, and payment fees?

Source notes

user_report: Fetched u57 shows TERRA MINISERVER G6 E-2488/32/2x960, EUR3326.36-4191.21, MOQ 1, Germany, processor E-2488, 32 threads, product status Lager, and no GPU/SXM2/NVLink details.

Open the listing, sign in to Alibaba, and choose Contact Supplier, Send inquiry or Chat now.

Lead #29 — Comprehensive Data Center Solution with Focused

OPEN LISTING / CONTACT SELLER

https://germany.alibaba.com/product-detail/Comprehensive-Data-Center-Solution-with-Focused_1100002577 9053.html

component • Match confidence 4/100

Price and delivery

Price unknown

Price basis: unknown

No price observed; no delivered-cost estimate to Zografou 15771 Greece can be made.

Why it was saved

Observed Alibaba related-product title is vague and may be a service or data-center solution rather than a purchasable GPU host; no V100, SXM2, NVLink, price, or BOM evidence.

Likely contents (claims, not confirmation)

• data-center solution or service

• possible server/rack hardware bundle

• GPU presence unknown

• SXM2 compatibility unknown

Missing or uncertain

• hardware vs service

• exact model

• GPU presence

• SXM2 compatibility

• NVLink topology

• CPU/RAM/SSD/PSU/fans/cables/rails

• condition and testing

• price

• shipping and import costs

Questions for the seller

• Is this a purchasable hardware server/rack bundle rather than a service?

• Does it include or support eight V100 16GB SXM2 modules in one 8-way NVLink topology?

• What exact server model, CPUs, RAM, SSD, PSUs, fans, cables, and rails are included?

• What is the price, condition, and total delivered cost to Zografou 15771 Greece including shipping, insurance, VAT, duty, and payment fees?

Source notes
